SLAM CRASH

Slam Crash is a crypto multiplier game that was launched 4 months ago with our Slam token. Slam Crash has performed very well since its inception.

Key figures

- Total wagered amount in USD: \$393,000,000
- Total bankroll profit in USD: **\$974,000**
- Total bets placed: **2,140,000**

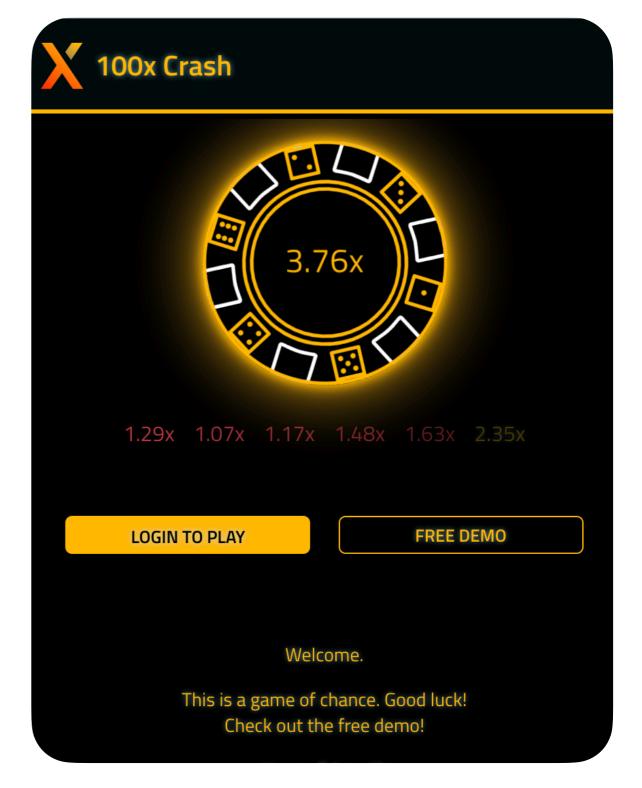

Partnerships

We have partnered with 7 tokens. 6 of which have been added to the Slam Crash website with separate bankrolls.

We recently introduced a new partnership model where we whitelabelled our platform to our latest partner.

For each of the partnerships, we will receive at least 50% of bankroll profits. These profits will be converted into BNB/ETH and added to Slam Pools.

We plan to add stable coins and more BSC tokens periodically to drive more traffic to **slamcrash.com.**

SLAM POOLS

Slam Pools represents SLAM's vision of being managed like a Fortune 500 company. It is a shareholder payout structure unlike other token. To qualify for a payout, you buy and hold a certain amount of SLAM. We have increased the payout shares of billionaires and millionaires. From now on,

SLAM Billionaires receive: 25% of all profits

SLAM Millionaires receive: 10% of all profits

When we say all profits we mean not only Slam Crash but every single Slam product that generates or will generate revenue will be added to Slam Pools. This will create a big pool for shareholders and an incentive to always hold, which helps to create a more stable price action.

We will either announce 7 days before a payout or won't announce it at all to prevent massive fluctuations of the price action. Slam Pools dashboard, which shows details of your Slam holding is accessible via **pool.slamtoken.com.**

Slam Pool is a revolutionary shareholder payout structure which makes every diamond hand SLAM investor a partner of SLAM.

Payouts will be in SLAM & BNB. BNB will be claimed on slamcrash.com while SLAM will be cumulatively locked for a 3 months period. To be able to qualify for a payout, you should NOT sell any SLAM during the 7 days before the payout.

BILLIONAIRES

\$SLAM billionaires will share 25% of the profit of the ecosystem based on their holding amount among billionaires. Higher the holding, higher the payout.

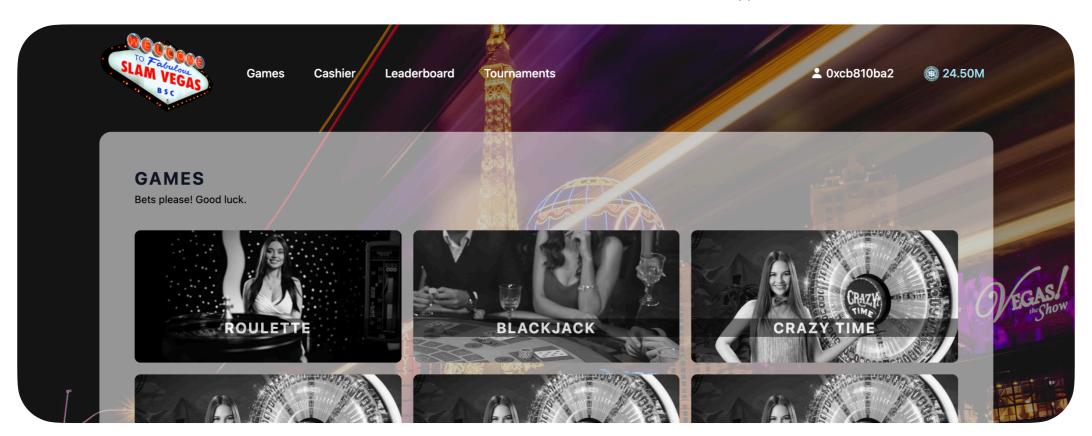

MILLIONAIRES

\$SLAM millionaires will share 10% of the profit of the ecosystem based on their holding amount among millionaires. Higher the holding, higher the payout.

SLAM VEGAS

We have built an entire online crypto casino called Slam Vegas. It is accessible to early Slam Holders under **beta.slamvegas.com**. We have applied for our gambling license and once we obtain it, we will launch Slam Vegas to the public. Initially, only certain countries will have access to the site since every country has its own regulations. Eventually our goal is to turn Slam Vegas into an industry giant with an annual revenue forecast of **\$100,000,000** worth of cryptocurrencies.

SLAM ROYALE

Our latest product is a crypto poker platform called Slam Royale which can be accessed under **slamroyale.com**. With its clean UI, private tables and soon tournaments Slam Royale will provide us the opportunity to tap into billion dollar poker industry. It is in beta like Slam Vegas as we will be licensing it. It is now only playable with BNB but we will be adding stable coins and major cryptocurrencies during **Q4**.

TOKENOMICS

SLAM Token has and always will be the governance token of every product under the SLAM Ecosystem. We will continue to find and integrate ways into our products that encourages everyone to be a SLAM holder in the long term.

It is a BEP-20 token on Binance Smart Chain with the contract address: **0xcCe7F9eB881248E04f2975a3Fb3B62631ad9eE37**We have renounced the ownership of the contract. Here are all the details,

- Supply: 1,000,000,000,000 \$SLAM
- Presale: 300,000,000,000 \$SLAM

LICENSES

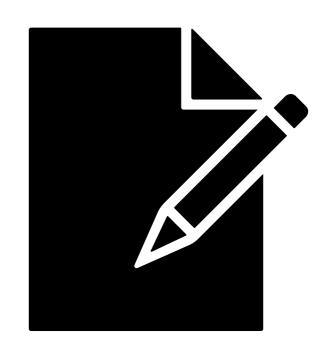

As you know we have initiated the licensing process. We expect to receive our official license during Q4 2021. All of the required paperwork were provided a while ago. We are just waiting to hear back from the authorities.

Please note that it is very common for crypto casinos to perform without a license or a company since it is a gray area in most places. As we have explained previously, we have every intention to be licensed and a verified operator in the field. We will do whatever it takes to get the necessary permissions.

Also, due to complex regulations in each country, we have to restrict access to Slam Vegas from certain countries until we have our permissions.

We are very close to hiring a consultant that specializes in global compliance for online gambling websites. This will be announced before end of August 2020.
